

FORM B
DOWNERS GROVE SANITARY DISTRICT
REQUIREMENTS AND APPLICATION
FOR THE INSTALLATION OF A SEPARATE METER
FOR USER BILLING ADJUSTMENT PURPOSES

The Downers Grove Sanitary District assesses a sanitary sewer user charge based upon metered water consumption. For those users who wish to receive a user charge credit for water used but not discharged to the sanitary sewer, the installation of a separate water meter is required. In certain cases, a sewer meter, in lieu of a water meter, may be required. The District will issue user charge credits based upon such a privately installed and maintained water or sewer meter if the following conditions are met:

- 1) The water meter must be installed at a location where it will only measure water used but not discharged to the sanitary sewer. The location of such a meter must be approved by the District prior to installation.
- 2) The private water meter should measure in the same units (i.e. gallons or cubic feet) as the water supply meter.
- 3) The purchase, installation, and maintenance of such a meter will be the responsibility of the property owner. The District shall require that the meter be installed by a properly licensed plumber and that said plumber submit a written statement to the District certifying that the meter was installed in accordance with generally accepted plumbing practices. Additionally, the District shall require that such a meter be inspected by a licensed plumber or authorized service representative at least every five (5) years to verify proper meter operation and to so certify in writing to the District.
- 4) The property owner shall execute this application below and agrees to the following provisions:
 - a) The applicant shall allow representatives of the Downers Grove Sanitary District, upon the presentation of credentials, to read and/or inspect the water meter at reasonable times.
 - b) The District reserves the right to eliminate user billing credits for water used but not discharged to the sanitary sewer if the above requirements are not met.

ABOVE CONDITIONS ACKNOWLEDGED AND ACCEPTED
