Project Notes**

It is preferred that all outdoor/exterior protective coatings and painting applications are hand applied. Spraying may be allowed when a better quality finish can be accomplished without risk of damage to surrounding areas and areas where overspray damage is a possibility.

Contractor is still responsible for all overspray problems.

The contractor is responsible for the removal and disposal of all debris from the surface preparation process.

The contractor is responsible for the removal and disposal of all sand & debris resulting from the blasting process.
