### **MINUTES**

The monthly meeting of the Downers Grove Sanitary District Board of Trustees was held on Tuesday, August 18, 2020, convening at 7:00 p.m. The meeting was held at the District's Administration Center, 2710 Curtiss Street, Downers Grove. Present were President Wallace D. Van Buren, Trustee Amy S. Sejnost, and Trustee Paul W. Coultrap, General Manager Amy R. Underwood, Staff Engineer Alex M. Bielawa and Attorney Michael G. Philipp. Administrative Supervisor W. Clay Campbell attended by phone.

### Minutes of Regular Meeting – July 21, 2020

A motion was made by Trustee Coultrap seconded by Trustee Sejnost approving the minutes of the regular meeting held on July 21, 2020 as presented and authorizing the President and Clerk to sign same. The motion carried.

### Minutes of Executive Session – July 21, 2020

A motion was made by Trustee Sejnost seconded by Trustee Coultrap approving the minutes of the executive session held on July 21, 2020 as presented and authorizing the President and Clerk to sign same. The motion carried.

### Claim Ordinance No. 1892

A motion was made by Trustee Sejnost seconded by Trustee Coultrap adopting Claim Ordinance No. 1892 in the total amount of \$820,868.93 as presented and authorizing the President and Clerk to sign same. The motion carried. (Votes recorded: Ayes–Van Buren, Sejnost and Coultrap.)

Public Comment - None

#### Old Business:

#### FY19-20 Budget Adjustment - Overhead Sewer Program

General Manager Underwood explained that the District's current fiscal year line item budget for its Cost Reimbursement Program for the Installation of Overhead Sewers or Backflow Prevention Devices was going to be exhausted due to an uptick in the number of residents participating in the program as compared to the previous fiscal year. General Manager Underwood recommended the District increase the budget line item for the Program by \$28,000 in order to predictably cover anticipated program participants through the remainder of the current fiscal year. A motion was made by Trustee Sejnost seconded by Trustee Coultrap approving of the budget line item increase for budget code 01-14.B128 (Fund 01, Cost Reimbursement Program for the Installation of Overhead Sewers or Backflow Prevention Devices) from the original budgeted amount of \$15,000 to \$43,000 for Fiscal Year 19-20 by reducing the budget line item for budget code 01-14.B900 (Fund 01, Sewer System Repairs) by \$28,000. The motion carried. (Votes recorded: Ayes–Van Buren, Sejnost and Coultrap.).

### New Business:

### Sewer Televising Contract Award

General Manager Underwood reviewed the bids received on June 11 for the 2020 Sanitary Sewer Televising Contract. Eight bids were received. She recommended that the contract be awarded to the lowest responsible, responsive bidder Sewertech LLC of Schaumburg, Illinois in the amount of \$84,422.50. A motion was made by Trustee Coultrap seconded by Trustee Sejnost to award the contract for the 2020 Sanitary Sewer Televising Contract to the lowest responsible, responsive bidder Sewertech LLC of Schaumburg, Illinois in the amount of \$84,422.50 and to authorize the General Manager and Assistant Clerk to sign same. The motion carried. (Votes recorded: Ayes—Van Buren, Sejnost and Coultrap.)

### Outfall Sewer Project Bid

General Manager Underwood reviewed the bid opening of the District's Outfall Sewer Project held on June 11. Four bids were received. The identified lowest responsible, responsive bidder was Copenhaver Construction, Inc. with a bid amount of \$358,603. After the District's engineer had recommended award of the District's project to Copenhaver Construction, Inc., a letter was received from Copenhaver Construction, Inc. indicating their bid was deficient due to a clerical error and requested that the District return their bid bond. District staff negotiated with Copenhaver Construction, Inc. for the return of their bid bond in exchange for a reimbursement payment to cover the costs of the District rebidding this project sometime in the future. District staff identified those costs at \$9,500. It is anticipated that the District will rebid this project during the 2021-2022 fiscal year. This item was provided to the Board for informational purposes only.

### Additional 2020 Paid Holiday - General Election Day

General Manager Underwood presented recent legislation that passed into law with an effective date of June 16, 2020 establishing that all government offices, with the exception of election authorities, shall be closed on November 3, 2020 in observance of a 2020 General Election Day Holiday. Staff requested the Board take action to add the day to the District's list of observed holidays in 2020. A motion was made by Trustee Sejnost and seconded by Trustee Coultrap to add the 2020 General Election Day Holiday to the District's list of recognized holidays to be observed on Tuesday, November 3, 2020. The motion carried. (Votes recorded: Ayes – Van Buren, Sejnost and Coultrap.)

### Review of Prior Executive Session Minutes

The Board reviewed the minutes of executive sessions held on January 21, 2020 and February 11, 2020, which have not previously been made available for public inspection or not previously reviewed. A motion was made by Trustee Coultrap seconded by Trustee Sejnost determining that the need for confidentiality no longer exists as to the executive session minutes of January 21, 2020 and February 11, 2020. The motion carried. (Votes recorded: Ayes–Van Buren, Sejnost and Coultrap.) A motion was made by Trustee Coultrap seconded by Trustee Sejnost approving destruction of the verbatim record of the executive session held on September 10, 2018, December 10, 2018, and January 15, 2019 as provided by state statute. The motion carried. (Votes recorded: Ayes–Van Buren, Sejnost and Coultrap.)

### Executive Session – Personnel

A motion was made by Trustee Sejnost seconded by Trustee Coultrap to recess the regular meeting and convene an executive session at 7:30 p.m. under exception 2(c)1 of the Open Meetings Act to discuss the performance of specific employees of the District. The motion carried. (Votes recorded: Ayes-Van Buren, Sejnost and Coultrap.)

A motion was made by Trustee Coultrap seconded by Trustee Sejnost to adjourn the executive session at 7:43 p.m. The motion carried. (Votes recorded: Ayes- Van Buren, Sejnost and Coultrap.)

### Other New Business

Trustee Van Buren welcomed Kimberly Giardini into her new role as a Permit Technician with the District and also welcomed Stephanie Cioni as the District's new Laboratory Analyst. Trustee Van Buren inquired about the current status of collections on delinquent user accounts related to the current COVID-19 pandemic. He also noted issues with the Hobson Lift Station pump being worked on by Rainbow Electric. He asked Staff Engineer Bielawa when Phase 3 of the District's biosolids composting pilot project would commence. Finally, he wanted to commend staff for their efforts at repairing a force main break at Venard Lift Station in early August.

Trustee Coultrap expressed congratulations to Information Coordinator Alyssa Caballero for the birth of her second child. He also welcomed Kimberly Giardini into her new role as a Permit Technician with the District and welcomed Stephanie Cioni as the District's new Laboratory Analyst. He inquired if District staff had experienced continued compliance challenges with mandating employees to wear masks at District facilities. He commented to Staff Engineer Bielawa that he appreciated the pictures of the District's painting services contract work included in his monthly Engineering Report. Finally, he inquired if there was any damage to District facilities due to a recent early August storm.

Trustee Sejnost welcomed Kimberly Giardini into her new role as a Permit Technician with the District and welcomed back Stephanie Cioni as the District's new Laboratory Analyst. She commended staff on the recent installation of five new automatic external defibrillator (AED) units throughout the District's Administration Center and Wastewater Treatment Center. She inquired if staff would be installing new signage in buildings that contain the units in order to identify where the resources can be found by employees and visitors. Administrative Supervisor Campbell also explained that the three AED units that were being replaced were being repurposed as mobile units in three specific District vehicles. She also thanked Staff Engineer Bielawa for the very detailed Engineering Report with pictures as it helps the understanding of the work being completed. She noted the Hobson Lift Station pump was 3/16" too short and would need to be corrected, the CHP radiator fans and other maintenance items that needed repair, and also expressed the importance of employees following the work-mandated mask rule. She finished by wishing for employees to stay safe and have patience during these times.

A motion was made by Trustee Coultrap seconded by Trustee Sejnost to adjourn the regular meeting at 7:44 p.m. The motion carried.

Providing a Better Environment for South Central DuPage County

Memo To: Amy Underwood, General Manager From: Alex Bielawa, Staff Engineer Date: September 10, 2020 Subject: Change Order No.1 for 2020 Paving

This project is now complete. The contractor, Meyer Paving, Inc., resurfaced the main road and the south side of the sludge drying pad as well as repairing portions of the road near the Big Top and the Belt Press Building.

Several of the quantities identified in the original contract needed to be changed in the field in order to complete the project.

This change order identifies those changes to the contract in writing. I prepared the attached change order, identifying the net contract cost increase of \$6,391.53.

The resulting final contract cost of \$104,039.23 is under the amount budgeted for this work of \$115,000.

I recommend Staff seek approval from the Board of Trustees for Change Order 1 to the 2020 Paving Contract with Meyer Paving, Inc. for a net increase in contract cost of \$6,391.53. The final payment to the contractor, including this change order amount, is included in Claim Ordinance 1893.

### MEMO

TO: Board of Trustees

FROM: Amy R. Underwood, General Manager

DATE: September 11, 2020

RE: Northwest Lift Station Solar Power Purchase Agreement Amendment No. 3

At the June 19, 2018 Board of Trustees meeting, the Board voted for the District to sign a letter of intent with TCA Microgrid Energy, LLC to provide solar power at the Northwest Lift Station (NWLS) and to negotiate a Power Purchase Agreement (PPA). The June 15, 2018 memo from former General Manager, Nick Menninga, to the Board which recommended that the District proceed with solar power at NWLS is attached (without the attachments) for your recollection. The analysis described in the memo indicated the District could expect to save \$112,331 over the 25-year term of the agreement. The PPA was signed on September 24, 2018.

TCA Microgrid Energy, LLC, which operates under the name Pivot Energy, has partnered with Onyx Renewable Partners who is now responsible for delivering the project.

A portion of the NWLS site is in the flood plain. The solar energy system layout in the PPA showed solar panels in the flood plain. During the permitting process, the panels in the flood plain were eliminated, reducing the expected solar output of the system. The permitting authority required that infiltration swales or bioswales be installed to manage stormwater runoff from the solar panels. The labor associated with obtaining the permit and the permitting fees were more extensive than anticipated by Pivot when the PPA was signed. The bioswales were an unforeseen expense.

According to Onyx, the project is no longer economically viable for Pivot and Onyx due to the unanticipated costs associated with permitting and the bioswales. The PPA allows Pivot to terminate the agreement for this reason. Rather than terminate the agreement, Pivot and Onyx have approached the District proposing an increase in power purchase price from \$0.04456/kWh

**General Manager** Amy R. Underwood

**Legal Counsel** Michael G. Philipp to \$0.0605/kWh. At the revised rate, the project is economically viable for them. Their power savings calculations at the proposed rate are attached.

The PPA clearly states that the permitting expenses are Pivot's responsibility. Whether the bioswales should be covered by the solar provider or by the District is not as clear. The bioswales could be considered part of the permitting requirements, which would be the solar provider's responsibility. They could be also be considered "unforeseen groundwork" or a "landscaping improvement" both of which are specifically excluded from the contract price and would be an extra that should be paid by the District.

Since the project will not move forward without the District covering part of the unforeseen costs, the District decided to evaluate whether the savings at the proposed revised purchase price was sufficient for the District to proceed with the project. The District's analysis was revised using the new solar power output and the revised purchase price. As noted in the attached June 15, 2018 memo from Nick Menninga, the District's analysis takes into account more factors than the Onyx analysis. For example, the District's analysis considers the excess solar power that the District would sell back to ComEd. The revised table showing the expected costs is provided on the next page. The revised 25-year savings is predicted to be \$55,716, which is \$56,615 less than was expected when the Board originally decided to proceed with the PPA. The construction cost of the bioswales is \$57,500. The District would be covering most of the cost of the bioswales. Given that the District staff has already invested work in this project and the expected savings is still substantial, District staff recommends accepting the revised power purchase price proposed by Onyx.

Onyx provided a draft Amendment No. 3 modifying the solar energy system size, the power purchase price, and the time by which the installation needed to start. The Amendment No. 3 was forwarded to District Attorney, Mike Philipp, for review.

At the September 15, 2020 Board meeting, staff will be seeking approval from the Board for the General Manager to sign Amendment No. 3 to the Power Purchase Agreement for solar power at the Northwest Lift Station decreasing the solar energy system size from 194.3 kW DC to 126.54 kW DC and increasing the power purchase price from \$0.04456/kWh to \$0.0605/kWh, pending legal review of the amendment.

Memo

TO: BOARD OF TRUSTEES

FROM: NICK MENNINGA, GENERAL MANAGER

DATE: June 15, 2018

SUBJECT: POWER PURCHASE AGREEMENT FOR SOLAR POWER AT NORTHWEST LIFT STATION

We have been approached by Microgrid Energy LLC, with a proposal to provide solar power at the Northwest Lift Station.

Solar power technology has dropped to historic low prices. In order for end-user pricing to compare with grid power through ComEd, a number of subsidies are necessary. Those subsidies include tax credits and sale of renewable energy credits. As a public agency without any tax burden, tax credits are not directly available to us. The value of renewable energy credits sold in Illinois is expected to reach historic highs shortly with the recent passage of the Future Energy Jobs Bill by the State, setting aggressive targets for solar power in Illinois.

One model for taking advantage of both subsidies is to have a private company produce solar power on public property, and sell it to the public user (like DGSD), via a power purchase agreement. The private company can recover the tax credits, as well as the value of the renewable energy credits. They can then sell the electricity directly to us at a set price. They provide the equipment, installation, operation and maintenance, and manage the financial aspects of construction and recovering subsidies, simplifying our involvement. They take on risk associated with future subsidy markets, fixing the price that we pay for an extended period of time in the power purchase agreement.

Our Northwest Lift Station provides the most obvious opportunity for this arrangement at DGSD. The property has space for solar panels, is located away from potential public contact or view, and uses much of the electricity that would be generated.

MIcrogrid has presented a proposal and a letter of intent that is needed to move forward with such an arrangement. The letter of intent allows them to pursue subsidies and finalize pricing. Final agreements would include a power purchase agreement, and a property lease.

The attached preliminary proposal is based on estimates made assuming certain renewable energy credit prices are available. We expect to receive firm pricing and final agreements for review shortly after the next renewable energy credit auction.

The cost implications of the proposal are more complex than they appear. Some of the electricity generated during peak generation hours would be sold by us to ComEd, and we would need to buy electricity through ComEd during times when the solar panels are not generating power. ComEd pays less than we are charged for electricity. While the solar power unit pricing is better than our current average unit cost through ComEd, the use of solar power would increase the unit cost of the power we would still need to get from ComEd for periods when the solar panels are in the dark, off-setting a portion of the savings identified in the proposal.

We have compared our current electricity costs with potential costs using preliminary numbers provided by Microgrid. The most recent 12 months of data show we would be saving \$1,280 under the \$19,720 we paid for electricity for the year if the proposed solar system were in place with a 4.5 cent/kwh price. Over the proposed 25-year period, the value improves if non-solar electricity costs increase while the fixed solar price remains at 4.5 cents. Here is a table showing the expected costs with a 2% per year escalator on non-solar electricity costs:

#### Annual Electric Cost

TOTAL	\$	631,589	\$	519,258	\$	112,331	

Such an installation would certainly incur some amount of staff coordination work, but overall, the District would enjoy significant savings in costs over the life of the agreement.

The final issue for discussion relates to ownership of the lift station property. The property is currently owned by the Village of Downers Grove, since the property transfer anticipated in the Northwest Service Area agreement (last amended in the early 1980s) has not yet been completed. We are currently discussing this transfer with the Village of Downers Grove, which would give us full control of the property needed for the associated lease. Any approval of this would be subject to successful transfer of the property from the Village to the District, or would require the property lease agreement be struck between the Village and Microgrid.

I will be seeking approval from the Board to execute the letter of intent with Microgrid, LLC, with the purpose of working with Microgrid to negotiate a power purchase agreement that is favorable to the District. Final project implementation would not occur without Board approval of the power purchase agreement and any needed associated agreements.

Attached are the Required Letters of Governance and the Annual Financial Report for the Year Ended April 30, 2020, as prepared by the District's auditors, Lauterbach & Amen, LLP. Brad Porter will attend the September 15 meeting to present the report. The report is not official until the Board of Trustees votes to accept it after review with a formal motion during the September 15 meeting.

Once the District's Board of Trustees takes action to accept the complete Fiscal Year 2019-20 Audit Report, as attached, it will be transmitted to the DuPage County Board Chairman's office per DuPage County Ordinance OCB-001-11 and filed as appropriate with the Illinois Comptroller's Office by October 30, 2020.

Members of the Board of Trustees Downers Grove Sanitary District, Illinois

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Downers Grove Sanitary District, Illinois for the year ended April 30, 2020. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated September 9, 2020. Professional standards also require that we communicate to you the following information related to our audit.

#### Significant Audit Findings

#### Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the District are described in the Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended April 30, 2020. We noted no transactions entered into by the Downers Grove Sanitary District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the governmental and business-type activities' financial statements was:

Management's estimate of the depreciation expense on capital assets is based on assumed useful lives of the underlying capital assets. We evaluated the key factors and assumptions used to develop the depreciation expense estimate in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

#### Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Downers Grove Sanitary District, Illinois September 9, 2020 Page 2

#### Significant Audit Findings - Continued

#### Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Any material misstatements detected as a result of audit procedures were corrected by management.

#### Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

#### Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 9, 2020.

#### Management Consultations with Other Independent Auditors

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

#### Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

#### Other Matters

We applied certain limited procedures to the required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

Downers Grove Sanitary District, Illinois September 9, 2020 Page 3

#### Other Matters - Continued

We were engaged to report on the other supplementary information and supplemental schedule, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

#### Restrictions on Use

This information is intended solely for the use of the Board of Trustees and management of the District and is not intended to be, and should not be, used by anyone other than these specified parties.

We wish to express our gratitude to the Board of Trustees and staff (in particular the Finance Department) of the Downers Grove Sanitary District, Illinois for their valuable cooperation throughout the audit engagement.

Members of the Board of Trustees Downers Grove Sanitary District, Illinois

In planning and performing our audit of the financial statements of the Downers Grove Sanitary District (the District) for the year ended April 30, 2020, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

We do not intend to imply that our audit failed to disclose commendable aspects of your system and structure. For your consideration we herein submit our comments and suggestions which are designed to assist in effecting improvements in internal controls and procedures. Those less-significant matters, if any, which arose during the course of the audit, were reviewed with management as the audit field work progressed.

The accompanying comments and recommendations are intended solely for the information and use of the Board of Trustees, management, and others within the Downers Grove Sanitary District.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various District personnel. We would be pleased to discuss our comments and suggestions in further detail with you at your convenience, to perform any additional study of these matters, or to review the procedures necessary to bring about desirable changes.

We commend the finance department for the well prepared audit package and we appreciate the courtesy and assistance given to us by the entire District staff.

## **CURRENT RECOMMENDATION**

#### 1. **<u>FUND OVER BUDGET</u>**

#### Comment

During our current year-end audit procedures we noted that the following fund had an excess of actual expenditures over budget for current fiscal year:

Fund	E	Excess		
Improvement	\$	3,861		

#### **Recommendation**

We recommend the District investigate the causes of the fund over budget and adopt appropriate future funding measures.

#### Management Response

Management acknowledges this comment and will work to correct it in the coming year.

This representation letter is provided in connection with your audit of the financial statements of the Downers Grove Sanitary District (the District), Illinois, which comprise the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information as of April 30, 2020, and the respective changes in financial position and the related notes to the financial statements, for the purpose of expressing opinions as to whether the financial statements are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement. An omission or misstatement that is monetarily small in amount could be considered material as a result of qualitative factors.

We confirm, to the best of our knowledge and belief, as of September 9, 2020, the following representations made to you during your audit.

#### Financial Statements

- 1. We have fulfilled our responsibilities, as set out in the terms of the audit engagement letter, including our responsibility for the preparation and fair presentation of the financial statements and for preparation of the supplementary information in accordance with the applicable criteria.
- 2. The financial statements referred to above are fairly presented in conformity with U.S. GAAP and include all properly classified funds and other financial information of the primary government and all component units required by generally accepted accounting principles to be included in the financial reporting entity.

- 3. We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
- 4. We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.
- 5. Significant assumptions we used in making accounting estimates, including those measured at fair market value, are reasonable.
- 6. Related party relationships and transactions, including revenues, expenditures/expenses, loans, transfers, leasing arrangements, and guarantees, and amounts receivable from or payable to related parties have been appropriately accounted for and disclosed in accordance with U.S. GAAP.
- 7. Adjustments or disclosures have been made for all events, including instances of noncompliance, subsequent to the date of the financial statements that would require adjustment to or disclosure in the financial statements.
- 8. The effects of all known actual or possible litigation, claims, and assessments have been accounted for and disclosed in accordance with U.S. GAAP.
- 9. Guarantees, whether written or oral, under which the District is contingently liable, if any, have been properly recorded or disclosed.

#### Information Provided

- 10. We have provided you with:
  - a. Access to all information, of which we are aware, that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, and other matters.
  - b. Additional information that you have requested from us for the purpose of the audit.
  - c. Unrestricted access to persons within the District from whom you determined it necessary to obtain audit evidence.
  - d. Minutes of the meetings of the District or summaries of actions of recent meetings for which minutes have not yet been prepared.
- 11. All material transactions have been recorded in the accounting records and are reflected in the financial statements.
- 12. We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.

- 13. We have no knowledge of any fraud or suspected fraud that affects the District and involves:
  - a. Management,
  - b. Employees who have significant roles in internal control, or
  - c. Others where the fraud could have a material effect on the financial statements.
- 14. We have no knowledge of any allegations of fraud or suspected fraud affecting the District's financial statements communicated by employees, former employees, regulators, or others.
- 15. We have no knowledge of instances of noncompliance or suspected noncompliance with provisions of laws, regulations, contracts, or grant agreements, or abuse, whose effects should be considered when preparing financial statements.
- 16. We have disclosed to you all known actual or possible litigation, claims, and assessments whose effects should be considered when preparing the financial statements.
- 17. We have disclosed to you the identity of the District's related parties and all the related party relationships and transactions of which we are aware.

#### *Government – Specific*

- 18. There have been no communications from regulatory agencies concerning noncompliance with, or deficiencies in, financial reporting practices.
- 19. We have identified to you any previous audits, attestation engagements, and other studies related to the audit objectives and whether related recommendations have been implemented.
- 20. The District has no plans or intentions that may materially affect the carrying value or classifications of assets, deferred outflows of resources, liabilities, deferred inflows of resources, or fund balance or net position.
- 21. We are responsible for compliance with the laws, regulations, and provisions of contracts and grant agreements applicable to us, including tax or debt limits and debt contracts; and contractual provisions for reporting specific activities in separate funds.
- 22. We have identified and disclosed to you all instances that have occurred or are likely to have occurred, of fraud and noncompliance with provisions of laws and regulations that we believe have a material effect on the financial statements or other financial data significant to the audit objectives, and any other instances that warrant the attention of those charged with governance.
- 23. We have identified and disclosed to you all instances, which have occurred or are likely to have occurred, of noncompliance with provisions of contracts and grant agreements that we believe have a material effect on the determination of financial statement amounts or other financial data significant to the audit objectives.
- 24. We have identified and disclosed to you all instances that have occurred or are likely to have occurred, of abuse that could be quantitatively or qualitatively material to the financial statements or other financial data significant to the audit objectives.

- 25. There are no violations or possible violations of budget ordinances, laws and regulations (including those pertaining to adopting, approving, and amending budgets), provisions of contracts and grant agreements, tax or debt limits, and any related debt covenants whose effects should be considered for disclosure in the financial statements, or as a basis for recording a loss contingency, or for reporting on noncompliance.
- 26. As part of your audit, you assisted with preparation of the financial statements and related notes. We acknowledge our responsibility as it relates to those nonaudit services, including that we assume all management responsibilities; oversee the services by designating an individual, preferably within senior management, who possesses suitable skill, knowledge, or experience; evaluate the adequacy and results of the services performed; and accept responsibility for the results of the services. We have reviewed, approved, and accepted responsibility for those financial statements and related notes.
- 27. The District has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset been pledged as collateral.
- 28. The District has complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
- 29. The financial statements include all component units, appropriately present majority equity interests in legally separate organizations and joint ventures with an equity interest, and properly disclose all other joint ventures and other related organizations.
- 30. The financial statements properly classify all funds and activities in accordance with GASB Statement No. 34 as amended, and GASB Statement No. 84.
- 31. All funds that meet the quantitative criteria in GASB Statement Nos. 34 and 37 for presentation as major are identified and presented as such and all other funds that are presented as major are particularly important to financial statement users.
- 32. Components of net position (net investment in capital assets; restricted; unrestricted) and classifications of fund balance (nonspendable, restricted, committed, assigned, and unassigned) are properly classified and, if applicable, approved.
- 33. Investments, derivative instruments, and land and other real estate held by endowments are properly valued.
- 34. Provisions for uncollectible receivables have been properly identified and recorded.
- 35. Expenses have been appropriately classified in or allocated to functions and programs in the statement of activities, and allocations have been made on a reasonable basis.
- 36. Revenues are appropriately classified in the statement of activities within program revenues, general revenues, contributions to term or permanent endowments, or contributions to permanent fund principal.
- 37. Interfund, internal, and intra-entity activity and balances have been appropriately classified and reported.

- 38. Deposits and investment securities are properly classified as to risk and are properly disclosed.
- 39. Capital assets, including infrastructure and intangible assets, as applicable, are properly capitalized, reported, and, if applicable, depreciated or amortized.
- 40. We have appropriately disclosed the District's policy regarding whether to first apply restricted or unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available and have determined that net position is properly recognized under the policy.
- 41. We are following our established accounting policy regarding which resources (that is, restricted, committed, assigned, or unassigned) are considered to be spent first for expenditures for which more than one resource classification is available. That policy determines the fund balance classifications for financial reporting purposes.
- 42. We acknowledge our responsibility for the required supplementary information (RSI). The RSI is measured and presented within prescribed guidelines and the methods of measurement and presentation have not changed from those used in the prior period. We have disclosed to you any significant assumptions and interpretations underlying the measurement and presentation of the RSI.
- 43. With respect to the other supplementary information:
  - a. We acknowledge our responsibility for presenting other supplementary information in accordance with accounting principles generally accepted in the United States of America, and we believe the other supplementary information, including its form and content, is fairly presented in accordance with accounting principles generally accepted in the United States of America. The methods of measurement and presentation of the other supplementary information have not changed from those used in the prior period, and we have disclosed to you any significant assumptions or interpretations underlying the measurement and presentation of the supplementary information.
  - b. If the other supplementary information is not presented with the audited financial statements, we will make the audited financial statements readily available to the intended users of the supplementary information no later than the date we issue the supplementary information and the auditor's report thereon.
- 44. In regard to the financial statement preparation and actuarial services performed by your firm, we have:
  - a. Assumed all management responsibilities.
  - b. Designated the General Manager and Administrative Supervisor, who have suitable skill, knowledge, or experience to oversee the services.
  - c. Evaluated the adequacy and result of the services performed.
  - d. Accepted responsibility for the results of the services.

#### **INDEPENDENT AUDITORS' REPORT**

September 9, 2020

Members of the Board of Trustees Downers Grove Sanitary District, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Downers Grove Sanitary District, Illinois, as of and for the year ended April 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Downers Grove Sanitary District, Illinois, as of April 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Downers Grove Sanitary District, Illinois September 9, 2020 Page 2

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents and budgetary information reported in the required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Downers Grove Sanitary District, Illinois' basic financial statements. The other supplementary information and supplemental schedule are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information and supplemental schedule are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and supplemental schedule are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

#### Management's Discussion and Analysis April 30, 2020

Our discussion and analysis of the Downers Grove Sanitary District's (the District) financial performance provides an overview of the District's financial activities for the fiscal year ended April 30, 2020. Please read it in conjunction with the District's financial statements, which begin on page 12.

#### FINANCIAL HIGHLIGHTS

- The user charge was increased from \$1.70 to \$1.80 per 1,000 gallons of consumption, effective April 2020. Staff identified a calculation error that overstated the billable flow for the past five fiscal years. The FY2018-19 billable flow was stated as 5.50 million gallons per day in the FY2018-19 Audit whereas actual billable flow for FY2018-19 was 5.12 million gallons per day. Billable flows for FY2019-20 were 4.96 million gallons per day, a 3.1% decrease below the corrected FY2018-19 billable flows.
- During the year, government-wide revenues for the District totaled \$10,159,388, while expenses totaled \$10,268,423, resulting in an decrease in net position of \$109,035. Even though the District recognized a positive net change in fund balances of \$1,703,619, the decrease in net position of \$109,035 resulted largely from the following: the disposal of CHP #1 as a depreciable capital asset, an increase in deferred inflows related to IMRF, and a change to the Total OPEB liability for the year.
- The District's net position totaled \$74,657,827 on April 30, 2020, which includes \$68,464,231 net investment in capital assets, \$2,209,431 subject to external restrictions, and \$3,984,165 unrestricted net position that may be used to meet the ongoing obligations of the District.
- Beginning net position was restated due to the District implementing GASB Statement No. 84 in the current fiscal year. The purpose of this restatement was to now include amounts related to fiduciary funds managed by the District on behalf of a third party. The \$7,260 amount found in Note 3 on page 33 represents funds held in trust in the District's Sewer Extensions Escrow Fund 71 as of May 1, 2019.

#### USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 12 - 14) provide information about the activities of the District as a whole and present a longer-term view of the District's finances. Fund financial statements begin on page 15. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. The remaining statements provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the government.

Management's Discussion and Analysis April 30, 2020

#### USING THIS ANNUAL REPORT - Continued

#### **Government-Wide Financial Statements**

The government-wide financial statements provide readers with a broad overview of the District's finances, in a matter similar to a private-sector business. The government wide financial statements can be found on pages 12 - 14 of this report.

The Statement of Net Position reports information on all of the District's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the District's property tax base and the condition of the District's infrastructure, is needed to assess the overall health of the District.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

#### **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

Management's Discussion and Analysis April 30, 2020

#### USING THIS ANNUAL REPORT - Continued

Fund Financial Statements - Continued

Governmental Funds - Continued

The District maintains five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Public Benefit Fund, Improvement Fund, Construction Fund, and Special Assessment Fund, all of which are considered to be major funds.

The District adopts an annual appropriated budget for all of the governmental funds, except the Special Assessment Fund. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 15 - 20 of this report.

#### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 21 - 43 of this report.

#### **Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's I.M.R.F. employee pension obligations, retiree benefit plan, and budgetary comparison schedules for the General Fund and major special revenue fund. Required supplementary information can be found on pages 44 - 49 of this report. The budgetary comparison schedules are presented immediately following the required supplementary information on pages 50 - 52 of this report. A supplemental schedule detailing the District's long-term debt requirements on page 53 of this report.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the District, assets/deferred outflows exceeded liabilities/deferred inflows by \$74,657,827.

A large portion of the District's net position, \$68,464,231 or 91.7 percent, reflects its investment in capital assets (for example, land, sewers, buildings, and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$2,209,431 or 3.0 percent, of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining 5.3 percent, or \$3,984,165, represents unrestricted net assets and may be used to meet the government's ongoing obligations to citizens and creditors.

Net position of the District decreased by 0.1 percent (\$74,766,862 in 2019, as restated, compared to \$74,657,827 in 2020). Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints, totaled \$3,984,165 on April 30, 2020.

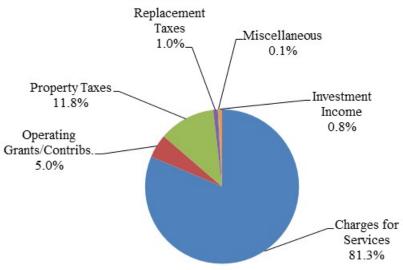

#### **Governmental Activities**

Revenues for governmental activities totaled \$10,159,388, while the cost of all governmental functions totaled \$10,268,423. This results in a deficit of \$109,035.

Management's Discussion and Analysis April 30, 2020

#### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

#### **Governmental Funds**

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

In the course of closing this fiscal year, the District changed its year-end accrual practices. Historically, the District has not accrued April invoices to the fiscal year, rather they have been applied to the next fiscal year. This year, the District accrued the April 2020 invoices in accordance with generally accepted accounting practices and hence, the expenditures included both the April 2019 and the April 2020 invoices. The impact to fund balances due to the change in accrual practices will only occur this year as the District intends to continue accruing April invoices going forward.

The District's governmental funds reported combining ending fund balances of \$8,394,699, which is \$1,703,619 or 25.5 percent, more than last year's restated total of \$6,691,080. Of the \$8,394,699 total, \$4,419,762, or approximately 52.6 percent, of the fund balance constitutes unassigned fund balance.

The General Fund reported a positive change in fund balance for the year of \$1,027,429, an increase of 19.9 percent. A reduction in fund balance of \$61,200 was budgeted to restore the ending fund balance to 25% of annual expenses. These variances are further outlined on the General Fund Schedule of Revenues, Expenditures and Changes in Fund Balance.

The General Fund is the chief operating fund of the District. On April 30, 2020, unassigned fund balance in the General Fund was \$4,419,762, which represents 71.5 percent of the total fund balance of the General Fund. As a measure of the General Fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance in the General Fund represents approximately 53.1 percent of total General Fund expenditures.

The Improvement Fund reported a negative change in fund balance for the year of \$22,433, a decrease of 1.9 percent. This change reflects project expenditures in excess of fund revenues for the year, with some variances from budgeted amounts. The Auditor's Management Letter includes a recommendation for the District to investigate the cause of the expenditures for this fund being over budget by \$3,861. This amount being above budgeted expenditures was due to the change in accrual practices mentioned above and the scope of engineering expenses related to the unsewered area plan being more extensive this year as compared to other recent years. In the future, the budget will be adjusted or cost control measures will be used to keep expenditures within budget. These variances are further outlined on the Improvement Fund Schedule of Revenues, Expenditures and Changes in Fund Balance.

Management's Discussion and Analysis April 30, 2020

#### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS - Continued

#### Governmental Funds - Continued

The Construction Fund reported a positive change in fund balance for the year of \$717,539, an increase of 227.5 percent. An increase in fund balance of \$731,100 was budgeted, to replenish capital reserves for future construction of improvements at the wastewater treatment center. These variances are further outlined on the Construction Fund Schedule of Revenues, Expenditures and Changes in Fund Balance.

#### **GENERAL FUND BUDGETARY HIGHLIGHTS**

There were no budget amendments to the General Fund during the year. General Fund actual revenues for the year totaled \$9,329,731, compared to budgeted revenues of \$9,368,200.

The General Fund actual expenditures for the year were \$1,106,999 lower than budgeted (\$8,322,401 actual compared to \$9,429,400 budgeted). Operation and maintenance costs were generally lower than anticipated, and a capital project at the wastewater treatment center and the completion of some sewer replacement work were delayed.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### **Capital Assets**

The District's investment in capital assets for its governmental and business type activities as of April 30, 2020 was \$71,651,920 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings and equipment, and sanitary sewer infrastructure.

Additional information on the District's capital assets can be found in note 3 of this report.

#### **CAPITAL ASSETS AND DEBT ADMINISTRATION – Continued**

#### **Debt Administration**

At year-end, the District had total outstanding debt of \$3,187,689 as compared to \$3,491,278 the previous year, a decrease of 8.7 percent. The following is a comparative statement of outstanding debt:

	Long-Term Del	Long-Term Debt Outstanding		
	2020	2019		
IEPA Loans	\$ 3,187,689	3,491,278		

Additional information on the District's long-term debt can be found in Note 3 of this report.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District's Board of Trustees considered many factors when setting the fiscal-year 2020-20 budget, tax rate, and fees that will be charged for its governmental activities. Increases in the user charge from \$1.70 to \$1.80 per 1,000 gallons of consumption and the surcharge rates from \$0.26 to \$0.28 per pound for BOD and \$0.33 to \$0.40 per pound for SS were established to match the increasing costs of operation, maintenance and replacement of infrastructure. Increases in connection fees were established to match increases in the cost of construction. Increases in inspection fees and sampling and monitoring charges were established to match salary increases.

The District anticipates an increase in tax revenues, budgeting \$1.254 million for 2020-21 as compared to the 2019-20 budget of \$1.188 million, an increase of 5.5 percent. The District's 2020-21 budget continues with previous equipment and infrastructure investments that help control long-term operating costs and sustain the infrastructure.

The President declared a major disaster for the State of Illinois on March 26, 2020, as a result of the COVID-19 pandemic. In response, the District discontinued water shutoffs of delinquent customers and began to waive late fees. The District put measures in place to address the safety of the District's employees and ensure continuity of service throughout the pandemic. As of the date of this report, the extent of the impact of COVID-19 on the District's operations and financial position cannot be determined.

#### **REQUESTS FOR INFORMATION**

Notes to the Financial Statements April 30, 2020

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Downers Grove Sanitary District (the District) was incorporated to provide and maintain economical treatment of the domestic and industrial wastes collected at its sewage treatment plant so that the wastes are given the degree of treatment necessary to prevent pollution of the water of the State of Illinois.

The government-wide financial statements are prepared in accordance with generally accepted accounting principles in the United States (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP in the United States for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the District's accounting policies established in GAAP in the United States and used by the District are described below.

## **REPORTING ENTITY**

The District includes all funds of its operations that are controlled by or dependent upon the District as determined on a basis of financial accountability. Financial accountability includes appointment of the organization's governing body, imposition of will, and fiscal dependency. This report represents the financial activity of the District for the year.

## **BASIS OF PRESENTATION**

#### **Government-Wide and Fund Financial Statements**

The government-wide Statement of Activities reports both the gross and net cost of the District's functions. The District's activities are supported by taxes and charges for services revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) changes to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues and expenditures. The District accounts for all of its activities in governmental funds, with the emphasis in the fund financial statements being on the major funds.

Nonmajor funds by category are summarized into a single column. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures of either fund category) for the determination of major funds.

**BASIS OF PRESENTATION** – Continued

#### Government-Wide and Fund Financial Statements - Continued

#### **Governmental Funds**

The following fund types are used by the District:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

*General Fund* is the general operating fund of the District. It is used to account for all financial resources, except for those required to be accounted for in another fund. The General Fund is a major fund.

*Special revenues funds* are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The District maintains one major special revenue fund. The Public Benefit Fund is used to account for the payment of sewer extensions or sewer special assessments which the District Board of Trustees deems to be of benefit to an area larger than the immediate service area.

*Capital projects funds* are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The District reports three capital projects funds. The Improvement Fund, a major fund, is used to account for sewer system, pump station improvements, and repayment of loans to the Illinois Environmental Protection Agency. The Construction Fund, a major fund, is used to account for the expansions to the Wastewater Treatment Center and repayment of loans to the Illinois Environmental Protection Agency. The Special Assessment Fund, also a major fund, is used to account for the installation of the public sanitary sewers in special assessment areas.

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

On the government-wide Statement of Net Position and the Statement of Activities, activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

Notes to the Financial Statements April 30, 2020

## **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** – Continued

## MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

#### **Measurement Focus**

The District's funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

The accounting objectives of the "economic resources" measurement focus is the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows, liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported.

#### **Basis of Accounting**

In the government-wide Statement of Net Position and Statement of Activities, activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The District recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability/deferred inflow is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

Notes to the Financial Statements April 30, 2020

## **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** – Continued

## ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

## **Cash and Investments**

For the purpose of the Statement of Net Position, the District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of purchase.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the District's investments are in 2a7-like investment pools that are measured at the net asset value per share determined by the pool.

## Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances include property taxes.

## Prepaids

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements. Prepaids are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased.

## **Capital Assets**

Capital assets purchased, or acquired with an original cost of \$5,000, or more, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Upgrades or rehabilitation that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

## ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

#### Capital Assets – Continued

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the District as a whole. When purchased, such assets are recorded as expenditures in the governmental fund and capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings and Equipment	5 - 75 Years
Sanitary Sewer Infrastructure	20 - 100 Years

#### **Compensated Absences**

The District accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as "terminal leave" prior to retirement.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

## **Deferred Outflows/Inflows of Resources**

Deferred outflow/inflow of resources represents an acquisition/reduction of net position that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

Notes to the Financial Statements April 30, 2020

## ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

#### **Net Position**

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets, as applicable.

Restricted – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted – All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

## NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

## **BUDGETARY INFORMATION**

The budget, levy and appropriation is prepared on the same basis and uses the same accounting practices as are used in the fund financial statements. Unexpended budget amounts lapse at the end of the budget year. Spending controls for the fund is established by the amount of expenditures budgeted for the fund, but management control is exercised at budgetary line level items. Expenditures may not exceed appropriations. During the fiscal year there were no supplemental appropriations. The District does not budget for the Special Assessment Fund.

## EXCESS OF ACTUAL EXPENDITURES OVER BUDGET IN INDIVIDUAL FUND

The following fund had an excess of actual expenditures over budget as of the date of this report:

FundExcessImprovement\$ 3,861

Notes to the Financial Statements April 30, 2020

## NOTE 3 – DETAIL NOTES ON ALL FUNDS

## **DEPOSITS AND INVESTMENTS**

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the financial statements as "cash and investments."

Permitted Deposits and Investments – Statutes authorize the District to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and Illinois Funds.

The Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. The Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold.

## Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk

*Deposits*. At year-end, the carrying amount of the District's deposits totaled \$3,379,651 and the bank balances totaled \$3,395,316. In addition, the District had \$2,996,046 invested in the Illinois Funds, which has an average maturity of less than one year.

*Interest Rate Risk.* Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District's investment policy does not address interest rate risk.

*Credit Risk.* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's investment policy does not address credit risk. The District's investment in the Illinois Funds was rated AAAm by Standard & Poor's.

*Custodial Credit Risk.* In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy does not address custodial credit risk for deposits. At year-end, the entire amount of the bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

## Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk - Continued

*Custodial Credit Risk – Continued.* For an investment, this is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy does not specifically address custodial credit risk for investments. The District's investment in the Illinois Fund is not subject to custodial credit risk.

*Concentration of Credit Risk.* This is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy does not address concentration of credit risk. At year-end, the District does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

## **PROPERTY TAXES**

Property taxes for 2019 attach as an enforceable lien on January 1, 2019, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by DuPage County and are payable in two installments, on or about June 1, and September 1. The County collects such taxes and remits them periodically.

#### **INTERFUND TRANSFERS**

Interfund transfers for the year consisted of the following:

Transfer In	Transfer Out	A	Amount
General	Special Assessment	\$	20,099

The District transferred the remaining fund balance in the Special Assessment Fund to the General Fund as of April 30, 2020.

#### **Fund Balance Classification**

In the governmental funds financial statements, the District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

*Nonspendable Fund Balance*. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

*Restricted Fund Balance*. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

*Committed Fund Balance*. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Trustees; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Trustees' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Trustees itself or b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The District's highest level of decision-making authority is the Board of Trustees, who is authorized to assign amounts to a specific purpose.

*Unassigned Fund Balance*. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

*Minimum Fund Balance Policy*. The District's policy manual states that the General Fund should maintain a minimum fund balance equal to 25% of annual operating expenditures.

## **NOTE 4 – OTHER INFORMATION**

#### **RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries commercial insurance for all risks of loss including worker's compensation and employee health insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in the past three fiscal years.

#### **CONTINGENT LIABILITIES**

## Litigation

The District is not a defendant in any lawsuits.

#### Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

## **Financial Impact of COVID-19**

In March 2020, the World Health Organization declared the COVID-19 virus a public health emergency. As of the date of this report, the extent of the impact of COVID-19 on the District's operations and financial position cannot be determined.

## NONDOMESTIC WASTE

The District received 4.468 billion gallons of waste water from 20,226 users (of which 649 are nonmetered). The District billed users for 1.802 billion gallons. Of the 20,226 users of the system, the following discharge nondomestic waste:

	Volume
User	(Gallons Per Day)
Good Samaritan Hospital Mar Cor Services	30,607 2,800
Bales Mold Service	2,098

## **EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLAN**

## **Illinois Municipal Retirement Fund (IMRF)**

The District contributes to the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at <u>www.imrf.org</u>. The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

## **Plan Descriptions**

*Plan Administration.* All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

*Benefits Provided.* IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

#### Illinois Municipal Retirement Fund (IMRF) - Continued

#### **Plan Descriptions** – Continued

*Benefits Provided - Continued.* Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings up to a statutorily set maximum during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

*Plan Membership.* As of December 31, 2019, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	27
Inactive Plan Members Entitled to but not yet Receiving Benefits	18
Active Plan Members	
Tier 1	25
Tier 2	14
Total	84

*Contributions*. As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended April 30, 2020, the District's contribution was 9.59% of covered payroll.

*Net Pension Liability.* The District's net pension liability was measured as of December 31, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2019, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Market
Actuarial Assumptions Interest Rate	7.25%
Salary Increases	3.35% to 14.25%
Cost of Living Adjustments	2.50%
Inflation	2.50%

For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. Actuarial Assumptions – Continued. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target	Long-Term Expected Real Rate of Return
Fixed Income	28.00%	3.25%
Domestic Equities	37.00%	5.75%
International Equities	18.00%	6.50%
Real Estate	9.00%	5.20%
Blended	7.00%	3.60% - 7.60%
Cash and Cash Equivalents	1.00%	1.85%

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.25%, the same as in the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

\$110,827 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the reporting year ended April 30, 2021.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

## **OTHER POST-EMPLOYMENT BENEFITS**

#### General Information about the OPEB Plan

*Plan Description.* The District's defined benefit OPEB plan, Retiree Benefits Plan (RBP), provides OPEB for all permanent full-time general and public safety employees of the District. RBP is a single-employer defined benefit OPEB plan administered by the District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the District Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

*Benefits Provided*. RBP provides healthcare, dental, and vision benefits for retirees and their dependents. Retirees and their dependents pay the full cost of the coverage. Coverage ends when the retiree stops paying for the coverage.

*Plan Membership.* As of April 30, 2020, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	4
Inactive Plan Members Entitled to but not yet Receiving Benefits	-
Active Plan Members	34
Total	38

## **Total OPEB Liability**

The District's total OPEB liability was measured as of April 30, 2020, and was determined by an actuarial valuation as of that date.

Actuarial assumptions and other inputs. The total OPEB liability in the April 30, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

## **Total OPEB Liability** – Continued

Actuarial assumptions and other inputs – Continued.

Inflation	2.50%
Salary Increases	2.25%
Discount Rate	2.56%
Healthcare Cost Trend Rates	The initial trend rate is based on known information with the second rate following the 2019 Segal Health Plan Cost Trend Survey. The grading period and ultimate trend rates selected fall within a generally accepted range.
Retirees' Share of Benefit-Related Costs	100% of projected health insurance premiums for retirees

The discount rate was based on a combination of the Expected Long-Term Rate of Return on Plan Assets and the municipal bond rate.

Mortality rates were based on the Sex Distinct Raw Rates as developed in the RP-2014 Study, with Blue Collar Adjustment. These rates are improved generationally using MP-2016 Improvement Rates.

## **OPEB** Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

Per GASB Statement No. 75, under the Alternative Measurement Method, changes in Total OPEB Liability are immediately recognized as expense, resulting in no deferred outflows of resources or deferred inflows of resources related to OPEB. At April 30, 2020, the District reported no deferred outflows of resources and deferred inflows of resources related to OPEB.

For the year ended April 30, 2020, the District recognized OPEB expense of \$164,913.

#### MEMO

TO: Board of Trustees

FROM: Amy R. Underwood, General Manager

DATE: September 11, 2020

RE: Special October Board Meeting

The Regular October Board Meeting is scheduled for October 27, 2020. The District's current electric supply contract ends in November, and the District plans to open bids for the new electric supply contract on October 6, 2020. October 27<sup>th</sup> is after ComEd's cutoff date for new supplier notification on five of the District's accounts. At the September 15, 2020 Board meeting, District Staff will be requesting that the Board select a date and time for a Special Board Meeting to be held during the second week of October or early in the third week of October in order to award the next electric supply contract.

RE: Progress Report - August, 2020

#### ADMINISTRATIVE

#### Personnel

The District is still in the process of receiving applications for its Administrative Assistant position.

#### Self-Quarantine for Travel to Certain States, Airline Travel and Attending Large Gatherings

District staff has continued to track and periodically inform employees of the most up-to-date list of states that are deemed "high-risk" to travel to and is requiring employees to self-quarantine for fourteen days after they return in order to come back to work at District facilities. For those employees where telework is available, they are able to continue working from home. In a recent update to the District's COVID-19 Preparedness Plan (a copy of which can be found here: https://www.dgsd.org/wp-content/uploads/DGSD-Covid-19-Preparedness-Plan-08.21.20.pdf), District staff added airline travel and attending large gatherings to the list of activities that would result in an employee being asked to self-quarantine for 14 days before returning to work. These actions are being taken in order to further protect District employees and our capacity to provide an essential service to our public.

#### IAWA Potential Legislation

Brian Johnson, of Greater Peoria Sanitary District, and I co-chair the Illinois Association of Wastewater Agencies' (IAWA) Legislative Subcommittee. As we are approaching the fall, we are working with IAWA's lobbyists as well as the National Association of Clean Water Agencies (NACWA) to formulate proposed legislation designed to regulate the presence of wipes in public sanitary sewer systems in the state of Illinois. There should be periodic updates on this over the next six to nine months.

Reimbursement Program for Sanitary Sewer Backups Caused by Public Sanitary Sewer Blockages

There have been no new backups resulting from a mainline blockage since the last update, and as a result, I have not included a new summary.

#### Safety Committee and Related Safety Matters

Safety Coordinator Jessie Gwozdz led a virtual Safety Committee meeting on August 25 and will schedule the next meeting for some time in September. The Committee reviewed any outstanding safety items, discussed any work-related injuries, near-miss reports and other items of interest. Highlights from discussion were the investigation of purchasing an Electrostatic Mister for COVID-19 Disinfection (which would allow District staff to do disinfection of various facility locations ourselves as the vendor services we researched appeared to be cost prohibitive if needed on a recurring or frequent basis), new hard hat distribution, the need to backfill and grade areas around the WWTC walkways as they present an uneven walking surface hazard, and that the Sewer System department had purchased new cones and signage for traffic control. Their existing cones will be repurposed by the Maintenance department. Safety Coordinator Gwozdz has been instrumental in deploying the District's new Training Portal which has been used for offering several different employee training resources.

#### Technology Update

Concentric Integration is assisting with deployment of the District's new video surveillance server as well as rolling out a malware/cybersecurity training service selected by District staff for training employees.

The following is a detailed summary of the Invoice Cloud portal's utilization in the last month and since the portal's launch in February 2015 through the end of last month:

#### CODE ENFORCEMENT & UNSEWERED AREAS

Building Sanitary Service Repair Assistance Program; Infiltration and Inflow Removal Program; and Overhead Sewers and Backflow Prevention Devices Reimbursement Program

I have continued to perform the legal review of both Program Agreements and Access Agreements for all of the above programs as prepared by our office prior to execution by the parties.

#### Sewer Permitting Process

I have continued to perform the legal review of Access Agreements and Annexation Petitions prepared by our office as needed by sewer permit applicants.

To: Amy Underwood, General Manager From: Marc Majewski, Operations Supervisor Re: Month of August, 2020 WWTC Operations Report. Date: September 9, 2020

Attached please find detailed operating data and our monthly report to Illinois EPA for August. We had no excursions over our permit limits in the month of August. Our NPDES permit expired on July 31, 2020. We will continue to operate under the expired permit until the permit is renewed.

Certain highlights of operational activities included:

- Monthly flow: Average daily flows to the plant were 6.99 MGD. Total precipitation at the WWTC was 1.33". There were no excess flow events during the month of August. There were no days of discharge over 11 mgd.
- Activated sludge: Operating performance was good throughout the month of August. Floc formers are predominating leading to good solids settling.
- Anaerobic Digesters: Pumped a total of 855,993 gallons of primary sludge, 678,630 gallons of WAS, and 244,243 gallons of waste grease for a total of 1,778,466 gallons pumped to digesters. Total Volatile Solids destruction was calculated at 65.6% for August.
- Digester gas: Total digester gas production was 3,682,641 cubic feet. 526,864 cubic feet of gas was used for anaerobic digestion heat, and 1,232,417 cubic feet was used in the CHP facilities. 1,690,507 cubic feet of flared gas was recorded during the month. The Munters dehumidifier used 232,854 cubic feet of gas.
- Bio-solids: Bio-solid drying continues. Bio-mechanics distributed 109 dry tons in the month of August, with a year to date total of 667 dry tons distributed. On August 5, the compost pile was rotated to phase 3 of the compost pilot.
- Miscellaneous Items: On August 6<sup>th</sup>, the South drying pad was ground, patched, and paved.
   On August 21<sup>st</sup>, Oscar Avila ended his seasonal employment.
- Electricity: Overall net energy from ComEd was: 245,839 KW-Hrs. Electricity Generated by the CHP system was 93,960 KW-Hrs. Monthly net energy (including natural gas usage) was 248 MW-Hrs for the month of August.

#### MEMO

#### TO: Amy Underwood, General Manager

FROM: Jeff Barta, Maintenance Supervisor

DATE: September 11th, 2020

SUBJECT: August 2020 Maintenance Report

Attached is a work order summary detailing equipment repair and preventive maintenance activities conducted by the maintenance/electrical department and operations during August 2020.

Special projects in August included:

#### 2020 Painting Services – Secondary Clarifier 4

GP Maintenance has completed the 2020 painting services work on Secondary Clarifier 4. This work included extensive sandblasting down to bare metal, two (2) coats of a 2-part epoxy primer followed by a finish coat of a UV resistant 2-part high solids polyurethane on all above water surfaces. All of the submerged surfaces were brush blasted, any bare metal surfaces were primed with a 2-part epoxy, followed by a finish coat of 2-part epoxy on all of the submerged surfaces.

Total cost for this completed painting project was \$40,000.

The last remaining item is large section of our underground tunnel including all piping and equipment between the Blower building and Division box 3. As mentioned in last month's report the tunnel painting work will be completed in late fall or early winter when we have lower temperature and humidity levels. During the warmer/humid weather there is a significant amount of condensation that occurs on the piping and equipment that prohibits any of the painting work.

#### 2020 Paving Services - WWTC Main Entry Road & South Sludge Drying Pad

Meyer Paving has completed all of the 2020 paving work at the WWTC, this year's work included:

#### -Main Entry Roadway

Significant patching, repairs and the complete repaving of the main entry road from the entry gate to the train tracks. In addition to the main entry road, Meyer Paving also repaired a large area of the roadway at the equipment wash-down area which is near the Belt Press building. The total cost for this project was \$47,826.91.

#### -South Sludge Drying Pad

The entire south drying pad was ground to remove the top surface, several deteriorated areas were repaired with full and partial depth patches, and the entire south pad was then repaved. In addition to the sludge drying pad work, there was a section of the existing roadway near the Big Top covered storage area that was repaired and widened to improve access into the covered structure. The total cost for this project was \$56,212.32.

The total for all of this year's paving work was \$104,039.23 which is under our FY20-21 budget of \$115,000.

#### OSEC Hypochlorite Generator – Water Heater Replacement

After almost 15 years of service, the in-line water heater for the OSEC Hypochlorite generator had shorted out and needed to be replaced. For optimal performance, the inlet water temperature into the Hypochlorite generator is required to be maintained at 70 degrees.

A new 3 phase in-line water heating element and thermostat has been installed and is operating as expected. This new water heater and the control thermostat was purchased from Chromalox at a total cost of \$3,524.63.

#### Hobson Pump 2 – Motor Repair Update

As mentioned in last month's report, after we received the repaired motor back from Rainbow Electric we discovered that there was a clearance issue and that the impeller was too close to the seal box assembly. The pump was returned to Rainbow Electric and they concurred with our assessment that when the shaft was repaired, it was made too short. The motor was disassembled and the shaft was sent back to the machine shop that they used to get this corrected.

Rainbow is expecting the shaft work to be completed this week. After they receive the repaired shaft, it will be balanced with the impeller, reassembled and returned. We anticipate receiving the pump back by the end of next week. The payment for this repair is still being withheld until we get the pump back in operation.

#### Venard Lift Station – Force Main Break

On August 13<sup>th</sup>, a force main break was reported to us by the Village of Downers Grove on Venard Road near our lift station. System personnel confirmed the Village's report and I was informed of the situation. The Venard lift station has dual force mains so the next step was to determine which force main was leaking and isolate it for the repair.

Initially, we were having difficulties determining which force main was leaking due to the fact that there was an interconnecting valve between the two force mains about a quarter of a mile south of the lift station that was in the open position. After we were able to close that interconnecting valve, we determined that the west force main was the cause of the leak and we were able to isolate it.

Once isolated, Uno Construction excavated and repaired the leak which was a hole in the force main near a previous repair from around 5 years ago. Fortunately, it was a relatively simple repair that could be made with a stainless steel repair clamp. This leak, which was located at 3713 Venard Road, was initially reported at approximately 6:30 a.m. and the repair was completed by 5:00 p.m.

During the process of determining which force main was leaking, getting it isolated and then during the repair, sewage was leaking in the roadway. Unfortunately, the amount of sewage was more than we could contain. It entered the storm sewer and eventually flowed into Lacey creek that runs along the side of the lift station.

After the repair was completed, the roadway was washed down and we began the clean-up process to remove the sewage that leaked into Lacey creek. The Village of Downers Grove assisted with providing fresh water to flush the sewage out of the storm sewers by using fire hydrants near the lift station. System and Maintenance Staff returned the following day and pumped the sewage out the creek back into our sanitary sewer and the Vac-Con was used to remove any remaining sewage that couldn't be pumped.

# **Progress Report**

To: Amy Underwood, General ManagerFrom: Reese Berry, Laboratory SupervisorDate: September 10, 2020Re: August 2020 Laboratory Report

We had no excess rain events in August. We had no permit excursions in August.

# Surcharge:

Due to Covid19 and the essential staffing mandate, we will not be surcharge sampling until the laboratory is fully staffed. At this time, we will not sample our surcharge customers this year, due to Covid19. We feel typical flow from these facilities has been impacted, so we feel it's best not to bill based on data that would be collected during this time.

# **Pretreatment Activities:**

#### **Dental Amalgam Rule:**

We hand delivered Dental Amalgam Reports to local dentists who haven't responded to the first 2 mailings. After speaking with reps, I believe they were simply misplaced or lost in the shuffle during the initial Covid19 response. We are still awaiting 10 dental amalgam forms from users. I'm in the process of following up in person with these locations, but due to Covid19, some of these locations are either closed or open very limited hours.

#### **Industrial Sampling:**

We have another round of sampling to do in the fall for our permitted users. We plan to get this completed during September to avoid inclement weather later in the year. All users are in compliance at this time.

#### **Personnel:**

Stephanie Cioni was offered and accepted the position of Laboratory Analyst. Her first day at DGSD was September 1<sup>st</sup>. Stephanie worked at DGSD as a temporary Lab Analyst during a summer/fall a few years ago, then left for full time employment. We welcome her back in a full time role with DGSD and are happy to have her. Malwina and I have been in the lab with Stephanie to help train and transition her into the Lab Analyst role. We plan to go back to the Covid19 staffing plan after her training is completed.

To: Amy Underwood, General Manager From: Alex Bielawa, Staff Engineer Re: Engineering Report for the Month August, 2020 Date: September 10, 2020

# I. Planning Projects & Studies

# A. Flow Monitoring

Currently the District is monitoring the Cycle "D" group of metering locations. Due to COVID-19, data is uploaded approximately every three weeks instead of weekly.

# **B.** Composting Pilot

The District and Sustainable Generation moved to Phase 1 of Heap 2 on September 2, 2020. The final product from Heap 1 is awaiting screening and pathogen/virus testing for public distribution.

#### C. Sewer System Televising

Approximately 61,138 Lineal Feet of Sanitary Sewer, ranging from 8" to 36" as well as 40 hours of heavy cleaning; bids were opened on June 11, 2020 and the apparent low bidder was Sewertech LLC of Schaumburg, Illinois in the amount of \$84,422.50. The District is awaiting a start date from the contractor.

#### **II.** Construction Projects

#### A. WWTC WAS Thickener

Baxter & Woodman and Boller Construction LLC are design building a replacement of our Tech 3 Combined Heat & Power (CHP) Engine. This engine had numerous engine failures and was not able to be repaired under contract. Baxter & Woodman and Boller Construction LLC are planning on replacing the 280 KW Tech 3 System with a 375 KW Nissen System. This Nissen unit will be identical to our existing Nissen unit located in the CHP No.2 room.

Demolition of the old Tech 3 Solutions unit has begun.

#### G. Sherman Street Sanitary Sewer Replacement

Baxter & Woodman has prepared plans and specifications for open cut replacement of approximately 347 feet of 8 inch sanitary sewer pipe with 10 inch sanitary sewer pipe. Please see the attached Client Status Report from Baxter & Woodman for more information.

The District is awaiting a start date from Austin-Tyler.

## **GENERAL MANAGER'S REPORT TO EMPLOYEES**

#### **Personnel**

The District is now hiring an Administrative Assistant position at the Administration Center. Please direct all interested persons for this position to submit an application. Information about the position and an application can be found at the following link: <u>https://www.dgsd.org/opportunities/</u>.

#### **COVID-19 Measures**

Effective August 28, if you have been traveling to and are returning from the following states, you will be asked to self-quarantine prior to returning to work: Alabama, Arkansas, California, Florida, Georgia, Idaho, Iowa, Kansas, Louisiana, Mississippi, Missouri, Nevada, North Dakota, Oklahoma, Puerto Rico, South Carolina, South Dakota, Tennessee, and Texas. Please note that Arizona, Nebraska, North Carolina, and Wisconsin, which were previously on this list, have been removed from the list as the number of daily new cases in these states has dropped.

Thank you for your continued patience and understanding in following measures to keep all employees safe.

## **TopHealth**

The September issue of TopHealth is enclosed.

#### Sewer Rehabilitation/Infiltration and Inflow Removal

We are targeting the 1-K-028 area for private property inspections and I/I removal. We are also monitoring the area around the 1-M-049 manhole to evaluate flows in the vicinity and impacts of the installation of a bolt-down cover at 1-M-049. Data collected shows that the local system containing 1-M-049 appears to be operating satisfactorily. Regular flow monitoring continues.

#### **Status of Projects**

1) 001 Outfall Pipe Repair

This project will be rebid.

2) WWTC WAS Mechanical Thickening

Concentric is working on the SCADA displays and programming.

3) Composting Pilot

Phase 3 will be complete next week. Phase 3 is the final step in composting. At the end of Phase 3, the bulking material (woodchips) can be removed and the product is ready for distribution. We will be building a new compost pile next week.

4) Paving Contract

Paving is complete.

5) Stanley Avenue Sanitary Sewer Rehabilitation

Cleaning is ongoing, and the lining is expected to be completed in September 17 and 18.

6) Sherman Street Sanitary Sewer Replacement

The contractor is currently coordinating with the Village to ensure that the Village's requirements are met. The work is expected to be completed in September.

7) CHP #1 Replacement

Demolition will start next week. The CHP equipment is expected to ship mid-September.

8) 2020 Painting Services

G.P. Maintenance Services, Inc. has finished coating Secondary Clarifier 3 and miscellaneous pedestals.

#### **GENERAL MANAGER'S REPORT TO EMPLOYEES**

#### WWTC Operations Data – August

The DMR for August indicates that the final effluent averaged 1.3 mg/L CBOD, 0.7 mg/L suspended solids and 0.21 mg/L ammonia nitrogen over a daily average flow of 6.99 MGD. There were no permit excursions in August.

#### Sewer Permits – August

There were 11 sewer permits issued in August – 3 single family, 1 multiple family, 2 repair, and 5 disconnections.

#### <u>Financial Data – August</u>

In August, the District received \$716,762 in the General fund, including \$103,038 in property taxes, \$247,968 in user charges, \$13,997 in surcharges, and \$314,670 in monthly fees. General fund expenses totaled \$775,189. The Improvement fund had revenues of \$3,231 and expenses of \$0. The Construction fund had revenues of \$6,607 and expenses of \$0.

#### **COVID-19 Measures**

Effective September 11, if you have been traveling to and are returning from the following states, you will be asked to self-quarantine prior to returning to work: Alabama, Arkansas, Florida, Georgia, Hawaii, Idaho, Iowa, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Nebraska, Nevada, North Carolina, North Dakota, Oklahoma, South Carolina, South Dakota, Tennessee, and Texas. In addition, if you travel by air, you will also be asked to self-quarantine prior to returning to work.

Thank you for your continued patience and understanding in following measures to keep all employees safe.

#### Presidential Executive Order and Payroll Tax Deferral

On August 8, President Trump signed an executive order providing employers with the option of deferring the 6.2% employee portion of Social Security tax normally withheld each payroll from September 1, 2020 through December 31, 2020 for employees that receive less than \$4,000 every two weeks. If an employer decided to defer it from an employee's paycheck during that time, the employee would receive a larger amount of net pay, but would still owe the tax. The employer

would then collect the deferred tax amount on all payrolls from January 1, 2021 through April 30, 2021, meaning employees would receive a lower amount of net pay than they are currently used to receiving in order to "catch up" on the deferred tax. On August 28, the Internal Revenue Service provided additional guidance that an employer has the option to not participate in such a payroll tax deferral. **The District has elected to not participate.** There is no action for employees to take at this time.

## <u>Flu Shots</u>

The District will again be offering free flu shots to all employees this year. We are still investigating the logistics behind offering this to employees this year. Your participation is voluntary and we will have additional information coming in the next few weeks.

#### **Status of Projects**

1) 001 Outfall Pipe Repair

This project will be rebid.

2) WWTC WAS Mechanical Thickening

Concentric is working on the SCADA displays and programming. Startup is expected to be complete by the end of September.

3) Composting Pilot

Phase 3 of the first composting heap is complete. A portion of the compost was screened, and samples will be sent out for testing. The second composting heap was built last week.

4) Stanley Avenue Sanitary Sewer Rehabilitation

Cleaning is complete, and the lining is expected to be completed on September 15<sup>th</sup>.

5) Sherman Street Sanitary Sewer Replacement

The District is awaiting a start date from the contractor.

6) CHP #1 Replacement

Demolition of CHP #1 is ongoing. The CHP equipment is expected to ship mid-September.

7) 2020 Painting Services

G.P. Maintenance Services, Inc. has finished coating Secondary Clarifier 4.

8) 2020 Sewer Cleaning and Televising

The Board of Trustees approved the award of this work to Sewertech LLC of Schaumburg, Illinois at the August meeting. The District is awaiting a start date from Sewertech.
